

Clax[®] Polar

The Ultimate Cool for a more Sustainable Future

Reduce the environmental impact of your laundry without sacrificing quality.

Stay cool to keep the climate cool!

Clax Polar, a revolutionary breakthrough, transforms laundry by making room-temperature washing a reality. It empowers hotels to improve the sustainability of their laundry operations while reducing operational costs. Real-world applications have demonstrated significant reductions in energy consumption, carbon footprint, and water use while delivering outstanding performance.

Clax® Polar

The Ultimate Cool for a more Sustainable Future

Clax® Polar proves its performance with remarkable energy and water savings in several international hotels. Operating efficiently at room temperature, it reduces CO₂ emissions, delivering a more sustainable laundry solution.

The average annual operational savings¹ achieved by these hotels with 350 to 700 rooms.

Room Temperature

High Performance

Reduces WATER
up to

40%

13,000 KL or
5.2 Olympic
size swimming
pools²

Reduces STEAM
up to

80%

or 1,300
metric tons

Reduces ELECTRICITY
up to

25%

or 13,000 kWh

Reduces WASH TIME
up to

23%

or 380
man-days

Reduces EFFLUENT
up to

40%

or 13,000 KL

Reduces CO²
up to

275

metric tons³

Extends LINEN LIFE
up to

30%

¹Savings vary given laundry's operation may change over time; ²Olympic size pool: 50m L x 25m W x 2m D; ³CO₂ calculation follows Canadian Standards Association (CSA) Greenhouse Gas Registries
