Optimus™ Dispensing System

Optimus™ is Diversey's newest dispenser designed to be robust, intuitive and versatile. This dispenser provides unrivaled durability, accuracy and reliability.

The Benefits of Optimus

- Safe: No Sharp edges and ability to be a closed loop system with J-Fill
- Clean: Finish repels soil & water reducing bacteria
- Ergonomic, Modern & Intuitive.
- Versatile & Innovative: Broad applications capability. One or two water source solutions to match existing plumbing at sites, packaging and installs
- Meets most customers needs
- Reduces total cost: packaging, components, service/maintenance, inventory & lifecycle
- Simple and uses less spare parts
- Clean and space efficient design
- Reduced lead times
- Reduced down time: less service due to high reliability
- Performance: Industry leading accuracy

** Check local plumbing regulations for proper installation and back flow protection requirements*

Optimus™ Select

Features & Benefits

Excellent accuracy, safety, intuitive / ease of use, minimal training, reliability / robust, capability, versatility and operational efficiency

The user is permitted 9 choices across 2 flow levels - accessed with the touch of a button in a robust design. Targets customers that use 4 products regardless of pack forms. A compact building care system for bottle and bucket filling.

Optimus™ Dispensing System

Versatile to help optimize performance and productivity.
