

Protect Every Moment

IntelliCare™

Smarter Design. Sustainable Care.

A complete hand care solution featuring the world's first hybrid touchless dispenser.

It's time to reimagine hand hygiene.

Welcome to the world of IntelliCare, a complete and intelligent hand care solution designed to prevent infection, improve productivity, and protect your brand reputation.

Every year in Europe, the flu costs companies between 6 to 14 € billion and causes students to miss millions of school days. Up to 40,000 lives are lost to health care associated infections every year and poor hand hygiene is a key contributor in food borne illnesses which affect 23 million people per year.

Handwashing is the single most important way to prevent the spread of infection. The patented IntelliCare dispenser seamlessly shifts from touchless to manual mode to deliver uninterrupted hand hygiene across your entire facility.

The next generation of hand hygiene is here
– because every moment counts.

Why IntelliCare?

Patented HYBRID TECHNOLOGY

With automatic touchless that can switch to manual mode, soap is always available, even if batteries run out.

Greater OPERATIONAL EFFICIENCY

Effective infection prevention is reliably and efficiently managed, accessible and available across all locations.

Ultimate VERSATILITY

A single dispenser for all solutions lets you customize product selection at any time based on environment, site, or user needs.

Improved MAINTENANCE CONTROL

Reduce complexity and maintenance across your operations with timely battery replacement and content refills.

Greater SUSTAINABILITY

Collapsible refills minimize environmental impact, while product formulations are optimized for minimal CO2 footprint.

Trusted GLOBAL PLATFORM

One dispenser, product range and support tools available anywhere with globally trusted formulas and universal color coding.

Dispensers

No matter what your industry, environment, or site requires, this versatile dispensing system never stops working.

Intelligently Designed for Maximum Performance

- Patented hybrid dispenser with touchless and manual operation
- Large window for product and content visibility
- Multiple colour & design finishes
- Near-empty and low-battery signals
- Leading battery-life time
- Low and high-dose options
- Works with both liquid and foam refills

Refill Bottles

- Product and label are fully visible until empty
- Easily stacked and stored
- Reservoir for low-dose indication
- Tamper-proof pump to prevent contamination
- No-clog and no-drip nozzle
- Key-necked bottle with click mechanism ensures quick, easily-placed refill
- Translucent label for complete product visibility

A More Efficient, Sustainable Refill System

- Collapsible for less waste volume
- Leading sustainability footprint with less plastic use (gr/ml)
- Fully recyclable
- Empties fully for zero waste
- Biobased and eco labeled products available
- 1.3 L for fewer refill actions

Products that work for you and your employees.

Skin compatible formulations

Our formulations are developed to minimize skin irritation so they can be used as many times as needed to encourage hand hygiene compliance and reduce occupational illnesses that could otherwise result in sick leave.

- Dermatologically tested
- pH-balanced formulations
- Formulations enriched with skin conditioning emollients to keep skin soft and protect against irritation

Global availability and trust

Offering a selection of products that users around the world enjoy and trust, IntelliCare's different formulations offer wide appeal and acceptance. An easy-to-use global color coding system minimizes training needs.

- Unisex fragrance*
- Halal & Kosher certified
- Free of triclosan & parabens

*Fragrances comply to the IFRA guidelines (International Fragrance Research Association)

Smooth, efficacious application

With a compact range that fulfills every critical hand care need, these formulations have been widely tested so they work time after time while minimize purchasing complexity and inventory.

- Wide range of foam products
- Antibacterial and sanitizers have passed stringent tests across the globe
- Hand rubs meet CDC, WHO, APIC and PHAC hand hygiene recommendations for healthcare personnel hand rubs

IntelliCare is part of a full range of unique personal care solutions.

Professional Care Solutions

We offer professional businesses an uninterrupted delivery of safer and more efficient hand hygiene moments. This enables employees to work better and sustainably protect the value of their output.

Mobile Care Solutions

By allowing users to fully integrate their hand hygiene practices into work processes and daily movement, Diversey provides a seamless hand hygiene experience that spans work and home.

Guest Care Solutions

Our guest room and front of the house solutions contribute directly to leading performance in sustainability, guest experience and staff productivity for local, regional and global hospitality clients.

As the leading provider of smart, sustainable solutions for cleaning and hygiene, Diversey Care personal care systems let you seamlessly integrate safer, more effective skin care solutions into your daily operations.

The result? Greater productivity, stronger brand reputation and healthier people.

Because every moment counts.

Even the smallest moments with the right hygiene solutions can make a big difference.

Diversey has been, and always will be, pioneers and facilitators for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors. Led by Dr. Ilham Kadri, President & CEO, and headquartered in Charlotte, North Carolina, USA, Diversey employs approximately 9,000 people globally, generating net sales of approximately \$2.6 billion in 2016.

For more information, visit www.diversey.com or follow us on social media.

Diversey Care, as a leading supplier of cleaning and hygiene solutions, is partnered with the World Health Organization through the "Private Organizations for Patient Safety" initiative, to promote and provide better hand hygiene.
